

How Do I Share Information With Someone Who Is Not My Employer?

You are able to share your Workforce Registry Information with someone who is not your employer, for example, when seeking new employment. The information shared includes your contact information, current role, current employer, language, previous employment information, education history, course credit information, certificates, certifications, professional development, Environmental Rating Scale (ERS) and Class Assessment Scoring System scores (CLASS) scores. You can control the information shared in the resume report.

For a sample of all of the possible features of the resume report, see below.
