

What Should I Enter If I Attended Professional Development Which Is Not Approved By The Center for Early Learning Professionals?

We understand that professionals may have attended professional development which is not approved by the Center for Early Learning Professionals. This may have been because you attended a national conference or professional development in another state. This is still important and relevant information to include in your Workforce Registry account. To enter in non-Center approved professional development visit the “Professional Development” tab on the left. This will bring you here:

Click on “Add Professional Development” and continue to the following page:
Add Professional Development

Here you can add in the course and/or conference information. When entering in the course information enter in the full course title as it appears on your certificate. Relevant professional development related to the Workforce Knowledge and Competencies OR comparable credit hours in early childhood education should be entered.
